

## Corporate Social Responsibility Policies

### *Community Involvement*

PITC is committed to good corporate citizenship through reinvesting in the community that it serves. On top of sustained partnership with the SME community in being the country's economic drivers for innovation and productivity, PITC equally cares for the vulnerable and socially marginalized groups through incorporation of generosity in its initiatives.

#### **Programs and Activities**

##### Sustained Partnership with SMEs

PITC helps SMEs reach foreign markets, and promote their quality domestic products through various exports marketing operations set in ASEAN and Middle East countries. Likewise, PITC Customs Bonded Warehouse (CBW) services helps in facilitating the importation requirements of its accredited Philippine export producers. PITC continues to work with key industry sectors by supply sourcing and vetting of new technologies and innovative products which vary from agricultural, disaster-related, power and energy to medical technologies.

##### Charitable Support and Donations

PITC exemplifies its commitment to Corporate Social Responsibility (CSR) by demonstrating ongoing involvement and providing financial donations to charitable organizations for Persons with Disabilities (PWDs) and Persons with Medical Conditions.

PITC also supports local leadership and education programs which create learning opportunities for young Filipinos on the importance of vision and values in becoming servant leaders in their church and communities.
